---

## OBJECTIVE

React Native developer with a track record of building high-performance mobile applications. Passionate about creating seamless user experiences and solving complex problems through technology. Committed to continuous learning and collaboration to build impactful solutions.

---

## EXPERIENCE

**Junior React Native Developer**
**Virtus IT Private Limited (Nov 2023 - Nov 2024)**

**Midoc** (Available *on* [Google Play Store](#)  *and*  [Apple App Store](#))

- **Developed** offline-capable features for [Midoc](#) using React Native, integrating localStorage and caching for seamless user access. Managed SQL database interactions and implemented native code for location permissions to enhance functionality.
- **Optimized** [Midoc](#), an AI-powered healthcare app, boosting **user engagement** by **15%**.
- **Integrated APIs** for chatbot functionality,geofencing, and doctor-patient communication.
- **Optimized Redux state management**, reducing app load time by **20%** and improving performance scalability.

**React Native Developer Intern**
**AtoZee Solutions (Jan 2022 - Apr 2022)**

- Developed Satthah, a towing services app for a client in KSA using React Native.
- Consumed RESTful APIs and designed seamless UI with core Android features.

## PERSONAL PROJECTS

**React Native User Management – Redux Toolkit + API Integration**
**GitHub:[Repo Link](#)**

- Built user list and detail screens with Redux Toolkit and API handling.

- Implemented sorting, filtering, error handling, and navigation.

**Expense Tracker – React.js + Redux (In Progress)**
**GitHub:** [Repo Link](#)

- Converting to a full-fledged React.js app with Redux state management.
- Implements dynamic expense categorization, filtering, and data visualization.

**React Native Insta Story Creator – Native integration+Panresponder+ Animated**
**GitHub:** [Repo Link](#)
- Built drag & drop stickers with smooth animations using Animated & PanResponder.
- Enabled direct Instagram Story sharing via AndroidManifest modifications.
- Showcased expertise in gesture handling, native modules, and real-time UI interactions.

---

## TECHNICAL SKILLS

**Frontend:** React Native,React.js , HTML5, CSS3,React-Bootstrap
**Programming Languages:** JavaScript(ES6+), Java (Completed DSA)
**State Management:** Redux, Redux Toolkit, Redux Thunk
**Backend & API Handling:** Restful API Integration, WebSockets, Basic Blockchain Knowledge
**Version Control:** Git, GitHub
**Methodologies:**Agile Development, Scrum
**Professional Skills:**Team Collaboration, Cross-functional Communication
